I'm currently a student in the third year Environmental Design program in the Faculty of Architecture at the University of Manitoba. My main career aspirations lay within the field of Landscape or Urban design. I appreciate and value the benefit of any knowledge and experience gained during my education and from any workplace.

## Work Experience

McMunn and Yates Building Supplies (02/2015 - 10/2016)

600 Pembina Highway

(05/2017 - 11/2019)

### Sales and Service Desk

- Created and managed sales orders through a Point of Sales system
- Developed quotes for various products and structural packages

### Paint Desk

- Attained knowledge of an array of products in the department
- Operated and maintained necessary machinery

### Cashier

- Direct customer service
- Tactful handling of challenging situations

## Education

### Grant Park High School

450 Nathaniel Street

Winnipeg, Manitoba R3M 3E3

(204) 452-3112

Dates attended: 09/2010 - 06/2016

### University of Manitoba

66 Chancellors Circle

Winnipeg, Manitoba R3T 2N2

+1 (800) 432-1960

Dates attended: 09/2016 - Present

## Accomplishments

Throughout middle school and high school, I was in the Advanced Placement program. I participated in an entrepreneurship program called Junior Achievement through which our companies attained multiple awards. Within my first year in the Environmental Design program, a collaboration I was part of was featured in Warehouse Journal No. 28.

## Activities

During grades ten to twelve, I joined Junior Achievement, which provided the experience of creating a product and a business centered on selling this product to the public. In my grade eleven year I was enrolled in an employment-related class which led me to work at McMunn and Yates at 600 Pembina Highway during my previous school years and full-time during the summers of 2015 through 2019. I have continued to maintain my strength in Photoshop by working on personal projects, in addition to working in InDesign and Illustrator.

## Interests

When I'm not doing academic work, I appreciate spending time with my friends, as well as my family and my dog. Otherwise, I enjoy doing genealogy research, sketching, creating drawings in AutoCAD and modeling in Rhino 3D. I strive to exercise regularly to balance my relaxation time with physical activity. To unwind, I find myself watching documentaries or movies, reading, or listening to a variety of genres of music.
